

The following messages were received either by alumni web team or alumni office in responses to the students' event – FIFTH DIMENSION

Dear Friends,

I am extremely surprised to see the apathy and callousness of our state government in the matter related to upgradation of BESU, one of the best technical institutes of the state. It would be very unfortunate for this state if proper support of the state government is not received and such a golden opportunity is not cashed on. I am there always with you in your fight for this great cause.

I hope the WB Govt. understand the importance of a quick decision & do not stand in the way of upgradation of BE College which is long overdue.

Utpal K. Roy ('57 EE)

I, unfortunately, will not be able to attend the meeting but wholeheartedly support the conversion of BESU to an INI.
Conversion to INI should be based on merits and BESUS should be proud that the Anadakrishnan report chose our institution for conversion. Politics should not play any role in this. Conversion to the INI will be good for the college, for Bengal and for the country as a whole. It is a win-win situation. I hope you are successful in convincing them.
Good Luck.

Amitabha Chatterjee ('65CE)

We must not let this chance go away. It is great news that BESU is in the top position in the list. We must take the offer.

Pinaki Chakrabarti ('61CE)
