

SHORT TAKES

Besu teachers on protest path

AT LEAST 120 teachers of Bengal Engineering and Science University (BESU), Shibpur, on Thursday sat on a dharna on the campus urging the state government to implement the Ananth Krishnana Committee report at the earliest so that the university can get the status of Institute of National Importance (INI). The Ananth Krishnana Committee had given the highest rating to BESU among the seven institutions short-listed for the status. Since then, there have been several meetings between the ministry of human resource development (MHRD), BESU and the state government but no decision has been taken in this regard .
