

# FIFTH DIMENSION

A BESU,SHIBPUR STUDENTS' ENDEAVOUR

Dear Sir,

We have immense pleasure in informing you that a convention, entitled FIFTH DIMENSION, is being organized by the students of Bengal Engineering & Science University, Shibpur on October 12, 2006 at the university premises. This great occasion gives us the opportunity to cordially invite you to this endeavour of ours to enrich us with your valuable comments, opinion and vision about our futuristic alma mater.

## FIFTH DIMENSION:

Since its inception in 1856, 150 years back, Bengal Engineering & Science University, Shibpur (erstwhile B.E.COLLEGE), has always been a pioneer in the area of technological education and research in India. With its rich history and heritage this institution has served the nation through its numerous talents both in the field of academics and engineering industry. From Civil Engineering College to Bishop's College and then from B.E.College (Deemed University) to BESU,Shibpur, this institution has witnessed numbers of changes and upgradations in status and performance. These developments have paved the avenue for the enrichment of the post graduation education and technical research. It has contributed significantly towards the technological developments to ensure India's socio economic growth in the direction of materialization of VISION 2020.

Bengal Engineering & Science University, Shibpur is one again being rightly considered for an overall facelift and usher into a new technological era in the form of INI. The college awaits its long deserved fifth upgradation for its continuing service to the nation: A transformation to **IEST, Shibpur, the FIFTH DIMENSION.**

The convention is focused on the following points:

- IEST: importance and relevance of the brand
- The IEST status: Delayed or heading in the right direction?
- Need for IEST as an igniter of talent within West Bengal.
- The emerging paradigm shift in higher technical education in the prosperity of global capital and open market policy.
- The inevitable transformation-towards glory or anonymity
- Enhancement of the quality and quantity of the post graduate and doctoral research work to meet global competitiveness.
- Contribution to the development of industry, commerce and trade: Industry institution partnership programme guidelines
- Access to international project works
- Develop common policy and a general approach for funding in the future
- Proposals for the future prospects: the socio-economic impact

We hope that this endeavour will be a grand success with your kind presence and valuable opinion.

We do look forward to receiving your active participation, suggestions and /or advice to take this forward and achieve our objective of seeing BESU as an IEST.

With Personal Regards.

Thanking you  
  
Soumyaa S. Hati.

General secretary,BESU
