An Appeal from GAABESU

On-line: <http://www.becollege.org/members/AsmiPal.pdf>

Asmi Pal, a four-year old little girl is suffering from Anaplastic Large Cell Lymphoma of the vertebral bone and is undergoing treatment at Apollo Hospital, Chennai. She is the only loving daughter of Debashis and Smita, both young faculty members of our alma mater.

Asmi had been suffering from severe intermittent back pain since November 2012 and was unable to sleep during the night. She was initially admitted to Park Clinic, Kolkata. However, even after a series tests, the exact cause of the pain could not be diagnosed properly. Subsequently, her parents took her to Apollo Hospital Chennai where she was finally diagnosed with ALCL on January 24. Doctors at Apollo Hospital are treating her under COG ALCL protocol. Doctors assured that the success rate under this protocol is 80-90 %. The treatment consists of intensive blocks of chemotherapy over the next 4 weeks after which she will need to come every 4 weeks for chemotherapy over the next one-year. After each cycle of chemotherapy when her blood counts (WBC, platelets) fall she will need support with blood, platelets and antibiotics.

The total conservative estimate of the treatment is around Rs. 18 Lakh. From medical insurance and exhausting their own sources, they expect to arrange around Rs 10 Lakh. Still, there is huge shortfall, which needs to be bridged from whatever sources possible.

Through this email, GAABESU Emergency Fund Committee request you all to donate for the treatment of little Asmi and pray for her speedy and complete recovery.
