

An Appeal to Help Mala Sahoo, wife of Basudev Sahoo, 1986 (EE) in Medical Emergency

Launched on December 4, 2014

Last updated on March 8, 2015

Fund is closed now

How to donate – Removed now.

a)	Name of the person :	Mala Sahoo, wife of Basudev Sahoo, 1986 (EE)
c)	Contact Information Postal Address : Phone Number : Email id :	BN-11, DPL TOWNSHIP, DURGAPUR – 713202, W.B. +91 9434706582 sahoobasudev2008@gmail.com
d)	Primary Contact Person Postal Address : Phone Number : Email id :	Sri Utpal Pal, Alumni Mech-82 BN-09, DPL TOWNSHIP, DURGAPUR – 713202, W.B. +91 9434735982 ukpaldpl@gmail.com
e)	Brief Description of the Situation :	Enclosed in Annexure-I
f)	Medical Records, if applicable :	Some Records are enclosed for reference (in Annexure II)
h)	An estimate of the funds required for the case and Funds that are currently available from other sources	Rs. 20 lac (Rupees Twenty Lac) for Transplantation and arrangement of Kidney plus around 4 to 5 lac for Post- operative treatment Rs. 8 lac (Rupees Eight Lac) from Provident Fund, Relatives & Well wishers

Medical History

<http://www.becollege.org>

Mala Sahoo, wife of Basudev Sahoo, 1986 (EE), has been suffering from Diabetes Meletus for last 19 years and Hypertension for last 8-9 years. She has been taking INSULIN since 1998 alongwith other Medicines. She has also been suffering from Diabetic Retinopathy for previous 2 years and her left eye has been operated in December' 2013.

Since early 2014, her Renal System has also started to function poorly. Oedema on both legs has been observed. Sr. Creatinine, Urea and other parameters are found in severe ranges. On Kidney Biopsy, she has been diagnosed as Diabetic Nephropathy with Focal Segmental Glomerulosclerosis et Hylinosis.

She has seen Doctors of M V Diabetic Centre, Chennai, Dr. Mohan's Diabetic Centre, Chennai, Apollo Gleneagles Hospitals, Kolkata, Fortis Hospitals, Kolkata, Christian Medical College & Hospital, Vellrore, Mission Hospitals, Durgapur for her treatment. She is on Haemodialysis since September' 2014 and advised for Transplantation of Kidney.

Since, she has been suffering from multi-deseases, immunity power has considerably decreased and suffering from different ailments Off and On. The attending nephrologists suggest for Early Transplantation of Kidney.

Her parents have expired. Husband and brothers have been suffering from Diabetes Meletus. Only daughter child is 15 years old. Hence, no near-relative can donate kidney to her and the same has to be arranged from some outsider.

Till date, a huge amount of expenditure has already been incurred for treatment of the patient for the last 19 years. In 2014 itself, around four lac has been expended on account of hospitalizations and procurement of Medicines & Injections and Investigations from outside. Around Twenty Lac may be required for Transplantation and arrangement of Kidney from outsider. Post- operative treatment also attracts a huge expenditure (four to five lac) in addition.

It may also be mentioned that I have undergone Open Heart Surgery in 1993 and suffering from Diabetes Meletus and other ailments. Moreover, our only daughter child has also been suffering from Diabetes Meletus since 2012. Treatment of myself and daughter requires a good amount of recurring expenditure also.
