Subject: Seeking your help for my mother's recovery
To: [GAABESU](#) Secretary

Sub:- Seeking your help for my mother's recovery

Dear Sir

This is to inform you about the painful mental condition I am facing for last almost one year and want to seek your help with immediate basis.

In detail my mother is suffering from breast cancer with nodal effect (very advanced stage- as per TMC- T4bN3M0) and under the treatment of Dr Indranil Ghosh of Tata Medical Centre, Kolkata.

Till date I have tried to fight against this horrible disease with all my savings and properties but now in the worst stage. The immediate treatment which is known as Herceptin to be applied to improve the situation which is considerably expensive (Rs 90,000 per cycle and about 12 cycles are required)

I am trying utmost to make that fund and all possible efforts are already in place. Now I want to put my request to you to help me through GAABESU for funding such that desired medical action can be initiated without further delay.

Please help such that I can get my mother back from this horrible journey.
